

Calculus II (MATH 2205)
Fall 2017

Name (Print): _____

Quiz 6: Section 8.1, 8.2

Score: _____ / 10

Section 8.1

1. 5 points Write the terms a_1, a_2, a_3 , and a_4 of the following sequence. If the sequence appears to converge, make a conjecture about its limit. If the sequence diverges, explain why.

$$a_n = \frac{(-1)^n}{2^n}, \quad n = 1, 2, 3, \dots$$

Section 8.2

2. 5 points Find the limit of the following sequence or determine that the limit does not exist.

$$\left\{ \frac{3n^3 - 1}{2n^3 + 1} \right\}$$
